Special Needs

Are there any factors we should consider when planning your care? Eg: disability, feeding or sleep problems, physiotherapy, speech therapy, receiving treatment etc.

Ethnic Origin

Please indicate your ethnic origin. This is not compulsory, but may help with your healthcare, as some health problems are more common in specific communities, and knowing your origins may help with early identification of some of these conditions.

Please tick ONE box to indicate your background.

White British	<input type="checkbox"/>	Irish	<input type="checkbox"/>
Other White background	<input type="checkbox"/>	White and Black Caribbean	<input type="checkbox"/>
White and Black African	<input type="checkbox"/>	White and Asian	<input type="checkbox"/>
Other mixed background	<input type="checkbox"/>	Indian or British Indian	<input type="checkbox"/>
Pakistani or British Pakistani	<input type="checkbox"/>	Bangladeshi or British Bangladeshi	<input type="checkbox"/>
Other Asian Background	<input type="checkbox"/>	Caribbean	<input type="checkbox"/>
African	<input type="checkbox"/>	Other Black Background	<input type="checkbox"/>
Chinese	<input type="checkbox"/>	Other	<input type="checkbox"/>

Please state your first language:

Do you require an interpreter: Yes No

Accessible Information Standard

The Accessible Information Standard (AIS) is an NHS England information standard to ensure that people who have a disability, impairment or sensory loss receive information that they can access and understand. For example in large print, braille or via email, and professional communication support if they need it, for example British Sign Language interpreter

Do you require communication to be in Braille? Yes No

Do you require communication to be in Large Print? Yes No

Melanie Gearing – Practice Manager

Dear Patient

You may know that the Government decided in April 2015, that every patient should have a named Doctor. At present you are registered with **Dr Saket Patel** at **Brampton Surgery** and **Dr Luke Thompson** at **Alconbury Surgery**. Please note, you are free to see whichever Doctor you choose within the Practice.

If you feel strongly that your usual Doctor is a different Doctor within the Practice, please let us know and we will change your medical records accordingly.

We would like to emphasise that you do not always need to see or speak to your usual Doctor in person. You will still be able to see or speak to any of the Doctors in the Practice in the usual way.

Kind regards,

Melanie Gearing
Practice Manager

Information for new patients: about your Summary Care Record

Dear patient,

If you are registered with a GP practice in England, you will already have a Summary Care Record (SCR), unless you have previously chosen not to have one. It will contain key information about the medicines you are taking, allergies you suffer from and any adverse reactions to medicines you have had in the past.

Information about your healthcare may not be routinely shared across different healthcare organisations and systems. You may need to be treated by health and care professionals who do not know your medical history. Essential details about your healthcare can be difficult to remember, particularly when you are unwell or have complex care needs.

Having a Summary Care Record can help by providing healthcare staff treating you with vital information from your health record. This will help the staff involved in your care make better and safer decisions about how best to treat you.

You have a choice

You have the choice of what information you would like to share and with whom. Authorised healthcare staff can only view your SCR with your permission. The information shared will solely be used for the benefit of your care.

Your options are outlined below; please indicate your choice on the form overleaf.

- **Express consent for medication, allergies and adverse reactions only.** You wish to share information about medication, allergies for adverse reactions only.
- **Express consent for medication, allergies, adverse reactions and additional information.** You wish to share information about medication, allergies for adverse reactions and further medical information that includes: your illnesses and health problems, operations and vaccinations you have had in the past, how you would like to be treated (such as where you would prefer to receive care), what support you might need and who should be contacted for more information about you.
- **Express dissent for Summary Care Record (opt out).** Select this option, if you **DO NOT** want any information shared with other healthcare professionals involved in your care.

If you chose not to complete this consent form, a core Summary Care Record (SCR) **will** be created for you, which will contain only medications, allergies and adverse reactions.

Once you have completed the consent form, please return it to your GP practice.

You are free to change your decision at any time by informing your GP practice.

Summary Care Record patient consent form

Having read the above information regarding your choices, please choose **one** of the options below and return the completed form to your GP practice:

Yes – I would like a Summary Care Record

Express consent for medication, allergies and adverse reactions only.

or

Express consent for medication, allergies, adverse reactions and additional information.

No – I would not like a Summary Care Record

Express dissent for Summary Care Record (opt out).

Name of patient:

Date of birth: Patient's postcode:

Surgery name: Surgery location (Town):

NHS number (if known):

Signature: Date:

If you are filling out this form on behalf of another person, please ensure that you fill out their details above; you sign the form above and provide your details below:
